<b>Can I post these to my website/socials anonymously?</b>	<input type="checkbox"/> Yes		No	<input type="checkbox"/>

**Terms and Conditions:**

- \* Payment is required to confirm your booking. I do not take multiple bookings for the week of your estimated due date. If I become unable to provide services, I will make every effort to engage a back-up encapsulator. If one cannot be engaged, the placenta can be frozen and encapsulated as soon as possible.
- \* Placenta pills may be returned to you by tracked post and a signature required upon delivery.
- \* Placenta tincture is prepared for 6 weeks and ready for conversion by a homeopath. If you do not have a homeopath, I have an experienced contact I can refer you to and delivery to them can be arranged if required (\$10 drop-off fee, collection is your responsibility)
- \* Refunds will only be issued in the case of unexpected events such as miscarriage, stillbirth. In the case a placenta is taken by the hospital for analysis, a tincture can be prepared with a small piece of placenta asked for at the birth and the remaining fee will be refunded.
- \* Twin placentas are an additional \$50 processing fee and can be managed in several ways depending on the twin configuration. Please call to discuss
- \* All responsibility lies with you to conduct your own research into placenta encapsulation and tinctures, benefits, potential side effects and methods of preparations. One2One Mothercraft does not guarantee results or benefits nor take responsibility for possible side effects experienced during or after consumption.

- \* You are responsible for informing your midwife/ obstetrician of your desire to encapsulate, sign your placenta out and arrange for appropriate, storage until collection/delivery can be arranged.
- \* If for some reason your placenta will not be made available for use or must go to the lab for testing, please ask for a small amount from your midwife, approx 20c size, a tincture can be made.
- \* I do not take responsibility for damaged/lost placentas before coming into the possession of One2One Mothercraft. I will check your placenta for damage before processing and notify your support person/you of any damage before beginning. All care will be taken, if an accident occurs, you will be notified immediately, refunded and remaining products returned.
- \* If you have a blood-born disease, I cannot process your placenta.
- \* Meconium does not contain faecal bacteria and after thorough washing can be prepared as normal. Suspected Strep B colonisation is managed by using the steam method of preparation.
- \* Cord keepsake designs depend entirely on the length of the cord. All effort will be made to make your desired shape but the best fit for the length will be used.
- \* Do not allow anyone else to consume your placenta pills. Tincture should only be used by yourself or the child of that placenta. No responsibility is taken if someone else consumes your placenta.
- \* You understand that upon delivery of your placenta pills and products that One2One Mothercraft is free from all responsibility and liability, including someone other than who it is intended for consuming the products.
- \* I agree to openly communicate with One2One Mothercraft regarding any issues that arise that may impact the processing of my placenta
